5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

- A. Summary of the issuer's business operations: Technology development; Early commercialization

Signal Advance, Inc. has been refining its proprietary Signal Advance Technology and developing potential applications for implementation. The technology has been demonstrated to significantly reduce signal detection delays associated with a variety of analog signals that can originate from a broad range of physical sensors. The resulting reduction in response time translates to improved performance in control, interventional, and signal transmission systems as well as potential application in cybersecurity, specifically, analog encryption.

B. Subsidiary: P.I.C. Pocket, LLC

C. The issuers' principal products or services, and their markets

Products/Services: Engineering research and technology development related to application and implementation of the Company's proprietary Signal Advance technology (patented in the U.S., China, Europe and Mexico and India).

Addressable Markets: Biomedicine, industrial control/infrastructure, transportation, cyber-security, communications and defense. The Company is currently focused on cybersecurity applications (Analog Guard) while exploring applications in which temporally-advanced signal detection reduces or offsets system response delays to improve performance.

6) Issuer's Facilities

The issuer currently leases 1,000 Sq. ft. of office/lab space with access to an additional 4,000 sq. ft. of shop space located in the greater Houston area at the Company's principal office. The Company has licensed the proprietary Signal Advance technology from its founder, Dr. Hymel. The Company also owns the necessary technology development equipment and instrumentation to develop specific application for the technology.

The consolidated financial statements include the accounts of the Company and its wholly-owned, majority-owned or controlled operating subsidiaries. All intercompany accounts and transactions have been eliminated.

Revenue Recognition

Our revenue is generated by providing engineering, scientific and medical/legal consulting services. The majority of our services are provided based on hourly rate contracts. Some contracts may have limits. Revenue is not recognized over these limits until authorization by the client has been received.

The Company has concluded that each project represents a single performance obligation as each is a single promise to deliver a customized engagement and deliverable. For the majority of these services, either practically or contractually, the work performed and delivered to the client has no alternative use to the Company. Additionally, the Company maintains an enforceable right to payment at all times throughout the contract. The Company utilizes an input method and recognizes revenue over time, based on hours expended relative to the total estimated hours required to satisfy the performance obligation. This input method was chosen since it closely aligns with how control of interim deliverables is transferred to the customer throughout the engagement and is also the method used internally to price the project and assess operational performance. If the Company were to enter into an agreement where it does not have an enforceable right to payment at all times, revenue would be recognized at the point in time the project is completed.

Contract Assets and Liabilities

Accounts Receivable

Accounts receivable includes amounts billed and currently due from customers. Since the only condition for payment of our invoices is the passage of time, the Company records a receivable on the date the invoice is issued. Also included in accounts receivable are unbilled amounts resulting from revenue exceeding the amount billed to the customer, where the right to payment is unconditional. If the right to payment for services performed was conditional on something other than the passage of time, the unbilled amount would be recorded as a separate contract asset.

In addition, since the majority of the Company’s contracts are for a duration of less than one year and payment is expected within one year from the transfer of products and services, the Company does not adjust its receivables or transaction price for the effects of a significant financing component.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES – (continued)

Allowance for Doubtful Accounts

The Company determines an allowance for doubtful accounts based upon a review of outstanding receivables, historical write-off experience and existing economic conditions. Receivables past due over 90 days are considered delinquent and reviewed individually for collectability. Management has determined that the allowance for doubtful accounts as of March 31, 2022 and December, 31, 2021 were \$ -0- and \$ -0-, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Concentration of Credit Risk

The Company maintains its cash in demand deposit accounts or “noninterest-bearing transaction accounts” which, at times, may exceed federally insured limits. The Company’s management periodically assesses the financial stability of these banks. The Company has not experienced any losses on such accounts.

The Company had one customer which represented substantially all revenue for the year ended December 31, 2020. The contract with this customer ended December 31, 2020.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Investment in Equity Securities

The Company currently holds investments in marketable equity securities. Equity securities are recorded at fair value with the change in fair value recorded in earnings. Realized gains and losses are included in 'Other income (expense)' in the consolidated statements of operations.

Fair Value of Financial Instruments

Under FASB ASC 820 - *Fair Value Measurements and Disclosures*, the Company is permitted to elect to measure financial instruments and certain other items at fair value, with the change in fair value recorded in earnings. We elected not to measure any eligible items using the fair value option. Consistent with FASB ASC 820, we implemented guidelines relating to the disclosure of our methodology for periodic measurement of our assets and liabilities recorded at fair market value.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-tier fair value hierarchy prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES – (continued)

Fair Value of Financial Instruments (continued)

Our Level 1 assets primarily include our cash and cash equivalents (including our money market funds) and marketable equity securities. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities. The carrying amount of accounts receivable, accounts payable and accrued liabilities approximate their fair value due to the immediate or short-term maturities of these financial instruments.

Property and Equipment

Fixed Assets (land, buildings and equipment) are carried at cost less accumulated depreciation. Depreciation is based on the estimated service lives of depreciable assets and is provided using the straight-line method. In the case of disposals, assets and related depreciation are removed from the accounts, and the net amounts, less proceeds from disposal, are included in income.

Income Taxes

The Company accounts for income taxes in accordance with FASB ASC 740, “Income Taxes.” Deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and loss carryforwards and their respective tax bases.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income (loss) in the years in which those temporary differences are expected to be recovered or settled.

The effect of a change in tax rules on deferred tax assets and liabilities is recognized in operations in the year of change. A valuation allowance is recorded when it is “more likely-than-not” that a deferred tax asset will not be realized.

Tax benefits of uncertain tax positions are recognized only if it is more likely than not that the Company will be able to sustain a position taken on an income tax return. The Company has no liability for uncertain tax positions as of March 31, 2022 and December, 31, 2021. Interest and penalties, if any, related to unrecognized tax benefits would be recognized as interest expense. The Company does not have any accrued interest or penalties associated with unrecognized tax benefits, nor was any significant interest expense recognized during the three-month period ended March 31, 2022 and the year-ended December, 31, 2021.

Recent Accounting Pronouncements Issued

In February 2016, the FASB issued ASU 2016-02, Leases. This guidance requires an entity to recognize lease liabilities and a right-of-use asset for all leases on the balance sheet and to disclose key information about the entity's leasing arrangements. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2020, with earlier adoption permitted. ASU 2016-02 must be adopted using a modified retrospective approach for all leases existing at, or entered into after the date of initial adoption, with an option to elect to use certain transition relief.

The term of the Company’s office lease is “month-to-month” and thus the lease term is less than twelve (12) months. As such, the Company does not record a lease asset or obligation on its balance sheet as, per this new standard, the lease is deemed to have no impact on its financial position, results of operations, cash flows and related disclosures.

NOTE 3 – RECLASSIFICATIONS

Further, cost of acquisition and maintenance expense for intangible property, including patent renewals, trademark acquisition/transfer, licenses and trade secrets were capitalized and subject to amortization of their useful lives.

NOTE 4 – DEBT

The President provides funds to the Company under the terms of a Line of Credit Promissory Note negotiated with, and approved by, the Board of Directors. The line of credit is due on demand, is unsecured, and accrues simple interest at 2.5% per quarter. As of March 31, 2022 and December 31, 2021 there were \$0 outstanding.

PIC executed a note payable in the amount of \$4,458,000 agreement with a member when revenue was reclassified. The note accrued interest at 2% beginning January 4, 2023. PIC has the option to pre-pay the Note without penalty. The unpaid principal and interest is due on December 31, 2026. The note is unsecured and the balance on the note payable was \$3,253,183 on March 31, 2022.

On April 20, 2020, the Company received a Small Business Administration (“SBA”) loan under the government’s assistance related to COVID-19. The SBA loan was for \$10,400 with an interest rate of 0.98% and due in eight weeks. The SBA loan is to assist the Company in payroll during the COVID-19 time period. The SBA loan is forgivable if the Company payroll during this time utilizes all of the monies provided. During the year ended December 31, 2021, the loan was forgiven and the Company recorded the \$10,400 as other income

On April 28, 2020, the Company received the government assistance EIDL grant in the amount of \$4,000 related to the COVID-19 response by the government to assist companies during the pandemic. In the year ended December 31, 2021, the Company recorded the \$4,000 as other income.

NOTE 5 – INCOME TAXES

The Company follows ASC 740-10-50 “Accounting for Income Taxes.” Deferred income taxes reflect the net effect of (a) temporary difference between carrying amounts of assets and liabilities for financial purposes and the amounts used for income tax reporting purposes, and (b) net operating loss carry-forwards. No net provision for refundable Federal income tax has been made in the accompanying statement of loss because no recoverable taxes were paid previously. Similarly, no deferred tax asset attributable to the net operating loss carry-forward has been recognized, as it is not deemed likely to be realized.

The provision for refundable federal income tax consists of the following for the periods ending:

	March 31, 2020	December 31, 2021
Federal income tax benefit attributed to:		
Net operating loss	(177,265)	(620,815)
Valuation allowance	(177,265)	(620,815)
Net benefit	-	-
The cumulative tax effect at the rate of 21% of significant items comprising our net deferred tax amount is as follows:		
Deferred tax attributed:		
Net operating loss carryover	(37,226)	(130,234)
Less: change in valuation allowance	(37,226)	(130,234)
Net deferred tax asset	-	-

As of March 31, 2022, the Company had:

- 1) a total of \$798,080 in net operating loss carry-forward available to offset future taxable income, and
- 2) open tax years of 2021, 2020 and 2019 are subject to examination by tax authorities.
