Issuance of First Patent for Analog Encryption Technology

Signal Advance, Inc (the “Company”) is pleased to announce that the United States Patent and Trademark Office (USPTO) has issued the Company’s first patent on its Analog Guard® technology. This patent marks a significant milestone in the Company's strategy to deliver advanced encryption solutions for a variety of governmental and non-governmental markets.

In addition, a second continuation patent application, was submitted to the USPTO on 21OCT24. This application provides a more generalized and broader coverage of the Analog Guard® intellectual property.

The Company is preparing multiple additional continuation and continuation-in-part patent applications that will further strengthen the Company’s IP in this emerging field.
